TRIP TO TATE BRITAIN

TATE BRITAIN

Visual Arts students went to London to visit the Tate Britain on Monday February 5th for the day. The trip was part of gathering and researching art and photography for their exam coursework, for students studying on the A Level, GCSE and University Foundation Programmes.

Students had an excellent day and were able to see the Turner collection and the modern and contemporary British art collection.

As one of the most esteemed institutions in the UK, Tate Britain offers an unparalleled opportunity for students to immerse themselves in a diverse range of artistic styles and movements. By exploring the gallery's extensive collection, students can gain invaluable insights into the techniques, concepts, and histories behind iconic artworks. Witnessing these masterpieces firsthand can inspire creativity and spark new ideas for their own artistic endeavours. Additionally, engaging with contemporary exhibitions at Tate Britain allows students to stay abreast of current trends and innovations in the art world, enriching their understanding of the broader artistic landscape. A visit to Tate Britain never fails to deliver its promise to be a transformative experience, deepening students' appreciation for art and enhancing their artistic vision and skills.

CATS ARTISTS IN THE COMMUNITY

CATS AS Fine Art Students were invited to help at a Big Draw day at a local primary school.

All pupils were off timetable for the day to produce art based on the local environment. Eight different artists came into the school to lead the workshops and CATS students had the opportunity to assist the artists and help the pupils.

Swan, one of the AS Fine Art Students involved, wrote, "I was assisting in Year 6 with child book illustrator Jenny Duke. We learned about how she created her illustrations from planning the layout of each panel in the book to creating the characters. We also did print making and the effects they were able to achieve from the technique was astonishing. Seeing the pupils being fully invested in creating their characters, trying their best to convey their stories through artwork made me realize how fortunate I was to be able to be part of this experience. Overall, it was really interesting to visit an English state school and meet working artists."
